

INVESTMENT OPTION – PENSION

Cash

AustSafe Super

An Industry SuperFund

Investment Objectives/Target Return

To achieve consistent stable returns with the lowest volatility. Earnings should exceed inflation over rolling annual periods and in the medium term outperform the median cash manager over rolling 3 year periods. This option is not likely to have a negative return.

Investment Risk

Generally a secure way to invest. However cash investments tend to earn the lowest rate of return in the longer term.

Risk Profile

Very Low

Target Asset Allocation

Investment Mix

Asset Class	Range
Cash	100%
Total Defensive	100%

Investment Timeframe

No minimum timeframe

This option is most suited to

Members seeking to minimise their investment risk over the short term.

Asset allocation ranges and targets are current at 29 November 2010. However, these may change due to changes in return characteristics and/or objectives. The Trustee may also vary the actual asset allocation of each or any MIC option, within a specified range in order to achieve an investment objective. The Trustee reserves the right to alter these specific strategic ranges, add new investment options or remove an investment option at its discretion, without prior notice.
